

**Task#2 : Find the best selector for each field in shipping form in the following link .**

**<https://magento.softwaretestingboard.com/checkout/#shipping>**

- 1. Create a spec file in your cypress project and name it task2 .**
- 2. Add a comment above the command and mention what is the selector type you used .**
- 3. Create a public repository on github and name it yourname-qa-tasks .**
- 4. Push the solution on github with commit "Solution for task2" .**
